Subject: Talking points for action on OR 2012 303(d) list

Hi all,

Later today we will be taking a Partial Approval/Partial Disapproval action on Oregon's 2012 303(d) Impaired Waters List. We are approving part of what they submitted, disapproving part of it, making some corrections at their request, and adding 332 waters that they failed to add to their list. We are also returning 714 waters to Category 5, the impaired waters list, due to TMDL litigation. The sum of all of that results in EPA adding a total of 1,055 waters to Cat 5. We are seeking public comment on these additions. We are also taking no action on waters, Deliberative Process / Ex. 5 by ocean acidification, and are instead seeking additional data, information and comments about it. Attorney Client / Deliberative Process / Ex. 5

Attorney Client / Deliberative Process / Ex. 5

We are making no fanfare about any of this, but I wanted to provide you with the attached talking points in case you received inquiries. The talking points have been reviewed by ORC, and are also being provided to ODEQ. Our decision and all of our supporting documents will be up on our website later today or tomorrow morning at:

Please let me know if you have any questions. I Personal Privacy / Ex. 6 can be reached on my cell anytime at Personal Privacy / Ex. 6 if anything comes up. Thanks and happy holidays!
